INTRODUCTION

Data Management Aid (DMA) is a private firm established in 1990 with an aim to provide services related to community-based surveys, research, data management, data analysis. The firm conducts both quantitative and qualitative surveys. The firm provides monitoring and evaluation services including verification of program outputs (i.e., tangible products and services) with regard to physical, financial and management issues for the betterment and improvement of the overall implementation of the projects/programs. DMA also provides technical and logistics supports for conducting training on survey methodology, questionnaire development and data management.

DMA has an excellent working environment, and adequate number of experienced field investigators, computer operators and programmers for discharging professional services.

DMA has substantial experience in conducting numerous tablet-based studies across Bangladesh those among others included anthropometry, and determination of blood hemoglobin using HemoCue machine.

So far DMA conducted 184 demographic, agriculture, socio-economic, health, immunization, nutrition, and water-sanitation, human rights and governance issues with over 32 partners including international donors, humanitarian and development organizations, United Nations agencies, research institutions etc.

Recent experiences of DMA include Third-party Monitoring of WFP assistance food distribution for Rohingya refugees and verification of the program outputs of the four components (infrastructure, livelihoods, social mobilization and enterprise development) of the Chars Livelihoods Program (CLP) (www.clp-bangladesh.org) funded by DFID.

ORGANIZATION AND MANAGEMENT AND HUMAN RESOURCE

DMA operates in a slim structure with highly experienced personnel who work as associates and are complemented by a network of professionals having expertise in the areas of Research, Survey and Studies. Currently there are 22 regular staff, five highly qualified senior consultants/researchers and 16 junior to mid level staff members including field researchers and data entry technicians as well as administration and accounts personnel.

In addition, DMA has developed a pool of qualified Field Researchers numbering more than 400 (boys and girls including tribal ones), who are hired as and when necessary. About one third of them are trained in Tablet operations. They are available on short notice. DMA maintains an advisory panel consisting of highly qualified and experienced professionals to guide DMA management in all technical issues.

At DMA, the five senior-level staff members provide research support and backstopping to DMA's short-term consultants, quality assurance and quality control as well as management support for DMA operations. The Executive Director is responsible for all contracts and contractual issues and supervises all lead technical staff and deliverables for all contracts and task orders and is also extensively involved in the review of personnel functions. The Livelihoods and Disaster Management Expert, Research Specialist and the Monitoring and Evaluation Specialist provide research support and backstopping to short-term consultants and ensures quality output of the assignment.

For each assignment DMA organizes a kick-off briefing for the evaluation team to clarify roles, responsibilities and expectations, provide them with relevant documentation and generally advise on all aspects of the assignment to ensure that the evaluation team is able to conduct its work. In all its assignments, DMA ensures that the evaluation proceeds in line with the ToR, as well as with the norms and standards and code of conduct of the profession. The DMA team ensures that the quality assurance system are systematically applied to the evaluation and that quality standards and deadlines are met.

Financial Management Specialist, manages DMA's financial operations, cost forecasting, budgeting and reports to the Executive Director. The Office Manager, ensures that DMA's projects are supported with administrative and other staff and all logistics are in place as and when needed.

DMA has established existing policies and procedures regarding personnel management, travel, billing, the use of consultants, and other practical management issues that are essential to the smooth administration of the contracts.

STRENGTHS

DMA team members comprised of a group of sound and dependable professionals. The team is fully capable of handling contracts and projects of any size. Over the years DMA have been active in establishing linkages and rapport with many potential resource personnel and organizations.

DMA believes that the works of its team will always reflect the following strengths:

- in-depth understanding about the vital community-based development program dynamics and program management factors of both GOB and NGO sectors;
- strong background and skills in the areas of program based study/research, evaluation, situation analysis techniques and verification of program outputs, and
- long-time practical experiences in management, monitoring and supervision of NGO, donor and government agency operated research and development programs.

The associates have many years of working experience with UN system agencies, GOB, World Bank and other leading international and national agencies.

AREAS OF SPECIALIZATION

DMA offers expertise aimed at resolving a broad range of managerial and/or technical issues for clients mainly through investigation, survey, research and evaluation in the public and private sectors. Important sectors or areas of services DMA has been working include:

<ul style="list-style-type: none"> • Poverty Alleviation • Agriculture (incl. value chains) • Community and Social Development • Rural Development • Water Supply, Sanitation • Health and Nutrition • Primary and Secondary Education 	<ul style="list-style-type: none"> • Environment Protection and Premonition • Microfinance and Micro-enterprise Development • Children, Women and Gender Development • Disaster Prevention and Management • Governance and Human Rights • Third Party Monitoring
---	--

Project Design and Management: Design and conduct all kinds of quantitative and qualitative research: strategic planning, project identification and evaluation, project implementation and monitoring, project management, feasibility and impact studies, PRA etc.

Research and Survey: We conduct Baseline surveys, Mid-Term Reviews, Final or Endline Evaluations, Performance Evaluations, Third Party Monitoring, special Studies and Research. For detailed list of major ongoing and completed projects please see annex-1.

Auditing and verification: Design and plan independently and carry out the performance auditing and verification activities for the outputs of the project activities and provide professional supports for the development of better performance by the projects concerned. DMA was involved in verification for 8 years of the program outputs of the four components (infrastructure, livelihoods, social mobilization and enterprise development) of the Chars Livelihoods Program (CLP) funded by DFID under a long term arrangement.

Health and Family Planning: community health, immunization, nutrition, maternal and child health care, nutritional anthropometry of pre-school children/women, primary health care, family planning, water and sanitation, health care management, urban health etc.

Governance and Human Rights: DMA has experience in conducting studies related to governance and human rights issues and conducted multiple studies.

Urban Development: DMA has *developed* hands-on expertise in conducting survey on urban development program through conducting surveys and studies solely in the urban areas or as a part of a comprehensive study. Pro-poor development initiatives and municipal governance were our key interest areas of urban development.

Training: Training on survey methodology, techniques of data collection, PRA etc. are conducted by the firm. A good number of training materials on field data collection including slides, transparencies and videos on PRA are available.

Data Management: Twenty highly trained data entry technicians are working with DMA on full and part-time basis. The firm has the ability to handle large scale data sets and proven skills to carry out complex statistical analysis.

USING TABLETS FOR DATA COLLECTION

DMA has been using Tablets in its surveys. Now-a-days Tablets are increasingly used in social surveys as a data collection and data recording tool. DMA has experience in using Tablets and has successfully implemented multiple Tablet-based surveys.

When doing the interview using Tablets, enumerators reads each question in Bangla off the screen, just as if they were using paper questionnaires. Each interview are stored as an independent record in the secured server.

The use of Tablet gives significant benefits over traditional paper-based surveys. Using Tablet-based questionnaires greatly reduces survey error, especially data entry error. In a Tablet-based survey, as data is being entered subject to validation, i.e. it is controlled on the spot for possible errors (numbers out of range, percentages that do not add up to 100%, etc.) and some questions may be enabled or disabled on the basis of replies to the previous questions. In addition, all logic rules, such as skips to other questions or avoids, are controlled by the Tablet and not by the enumerator. Such rules are automatic, taking the enumerator to the next relevant question. This is particularly useful in complex, multi-indicator surveys.

As part of the interview the Tablet-based surveys enables to capture signatures, take pictures or videos and even record voice and attach it to any of surveys.

Using Tablet-based survey instead of paper based questionnaire also reduces the time needed for data collection and processing. Once data is collected with paper-based surveys, each questionnaire then has to be entered into a database by a data-entry clerk, and then cleaned of errors by a data analyst. With a Tablet-based survey there is no need for a subsequent data entry process since the data is entered directly into a data file. This greatly reduces data entry errors (these are the largest single source of error for a survey). Moreover, for each household GPS coordinates are stored automatically. Finally, Tablet-based surveys are environmentally friendlier. In addition, it reduces the logistics burden of carrying many questionnaires around the field and then storing them in the office.

BRIEF DESCRIPTION OF ORGANIZATIONAL CAPABILITY

Office Space & Vehicle: One flat having approx. 2500 sq. ft. space with all modern fittings at Level 3, House 8/A/Ka, Road 13 (New), Dhanmondi, Dhaka-1209.

Tablets: 102 Tablets (Samsung Tab 3V). All devices are connected with Grameenphone internet

Anthropometric Measuring Scale: DMA owns 55 digital weighing scales and 35 wooden height/length measuring boards in good working conditions.

Software Packages: Most of the up-to-date software packages are available with the DMA.

Telephone Numbers: 9144400, 01711-533451. E-mail: info@dmabd.com, Web: www.dmabd.com

List of Ongoing and Selected Completed Assignments by DMA

I. Ongoing Assignments

Sl. #	Description of the Assignment	Client/Organization
1.	Endline Evaluation of WFP School Feeding USDA McGovern Dole Grant International Food for Education and Child Nutrition Grant (Study design to report preparation) (November 2020 –January 2021)	World Food Programme
2.	Mid-term Evaluation of Nutrition Sensitive Value Chains for Smallholder Farmers Bangladesh (Study design to report preparation) (March - December 2020)	World Vision
3.	Quarterly Food Security Outcome Monitoring in the Rohingya refugee camps (Study design to data collection) (November 2019 to May 2020)	World Food Programme
4.	Independent Monitoring & Evaluation of DFID funded Global Fund for Ending Modern Slavery (GFEMS) (Study design to report preparation) (July 2019 to June 2023)	DFID (Lead Partner: IMC Worldwide)
5.	Panel Data Collection Process – A CARE initiatives namely “Fostering Learning and Adaptation in Resilience building” (FLAIRb) Phase II in S3X (Study design to data collection) (April 2020- June 2021)	CARE Bangladesh
6.	Social Distancing: Cross-Cultural Perspectives from Bangladesh, India, Japan and the UK (Study design to report preparation) (May – October 2020)	University of Leicester, UK

II. Major Completed Assignments

Sl. #	Description of the Assignment	Client/Organization
1.	Baseline Survey for Increasing Community Resilience to Disaster in Bangladesh (Study design to report preparation) (November - December 2020)	World Vision
2.	SHOUHARDO III Participants Based Sample Survey (PaBSS) (August – November 2020)	CARE Bangladesh
3.	Modern Slavery in the Garment and Textile Supply Chain: A Multidisciplinary and Comparative Study into Prevalence, Impact and Response in India and Bangladesh (Study design to report preparation) (April - June 2020)	University of Portsmouth, UK
4.	Impact of COVID-19 on Garments sector, Overseas Employment and Sex Workers (Study design to report preparation) (May - June 2020)	DFID (Lead Partner) IMC Worldwide)
5.	Impact Assessment of four selected interventions of Shomosti Project, implemented by CARE Bangladesh in 28 Upazials under 14 districts {September 2019 – December 2019)	CARE Bangladesh
6.	Aquaculture: increasing income, diversifying diets, and empowering women in Bangladesh and Nigeria (April 2019- March 2020)	World Fish Center

Sl. #	Description of the Assignment	Client/Organization
7.	End-line study of Establishing Vulnerable people's Rights and Access to social safety net program (EVPRA)" project, implemented by WVB and consortium partners under funding assistance of EU (October 2019 to December 2019)	World Vision
8.	Assessment of readiness of the facilities, providers and community to appropriately respond with SRH and GBV services and information during disaster in targeted disaster vulnerable areas (September – December 2019)	CARE Bangladesh
9.	Mid-term Evaluation of WFP School Feeding USDA McGovern Dole Grant International Food for Education and Child Nutrition Grant (Study design to report preparation) (May – October 2019)	World Food Programme
10.	Nobo Jatra Participants Based Survey 2019 (Study design to report preparation) (September 2019 - December 2019)	World Vision
11.	Joint UNICEF-GoB Nutrition Programme Evaluation, 2017-2020 (Study design to report preparation) (May – September 2019)	UNICEF
12.	SHOUHARDO III Participants Based Sample Survey (PaBSS) (July - October 2019)	CARE Bangladesh
13.	Third Party Monitoring of Food Distribution to the Rohingyas (Study design to report preparation) (December 2017 to June 2019)	World Food Programme
14.	Situation Analysis Situational Analysis of Improving Newborn Survival Project (INSP) (Study design to report preparation) (February to May 2019)	Save the Children
15.	Nobo Jatra Beneficiary Based Sample Survey 2018 (Study design to report preparation) (September 2018 - January 2019)	World Vision
16.	Agricultural Value Chain Annual Surveys 2017 (Study design to report preparation) (August - December 2018)	Agricultural Value Chain Project Development Alternatives Inc. USA
1.	Baseline and Annual Surveys for RDC (Study design to report preparation) (July – November 2018)	ACDI/VOCA
17.	SHOUHARDO III Beneficiary Based Sample Survey (BBSS) (July - October 2018)	CARE Bangladesh
18.	Endline Evaluation of Government Primary Schools for READ (February - June 2018)	Save the Children
19.	Baseline Survey of Nutrition Sensitive Value Chains for Smallholder Farmers Bangladesh (Study design to report preparation) (May - July 2018)	World Vision
20.	Final Evaluation of the Supportive Urban Slum Children to Access Inclusive Non-Formal Education (SUSTAIN) (December 2017 - January 2018)	Save the Children
21.	Opportunities and Challenges to Access Menstrual Regulation (MR) and Safe Post-Abortion Care (PAC) Services in Humanitarian Crises in Bangladesh	University of Leicester, UK

Sl. #	Description of the Assignment	Client/Organization
	(August 2017 - March 2018)	
22.	Nobo Jatra Beneficiary Based Sample Survey 2017 (Study design to report preparation) (August - October 2017)	World Vision
23.	Agricultural Value Chain Annual Surveys 2017 (Study design to report preparation) (June - December 2017)	Agricultural Value Chain Project Development Alternatives Inc. USA
24.	SHOUHARDO III Beneficiary Based Sample Survey (BBSS) (July - September 2017)	CARE Bangladesh
25.	Final Outcome Survey of McGovern–Dole Funded WFP School Feeding Programme (October - November 2017)	World Food Programme
26.	Baseline Study of SDC Shomoshti Project (Study design to report preparation) (January - June 2017)	CARE Bangladesh
27.	WSUP Household Survey (Study design to data collection) (February - March 2017)	Water & Sanitation for the Urban Poor (WSUP)
28.	Agricultural Value Chain Baseline and Annual Surveys 2016 (Study design to report preparation) (April - December 2016)	Agricultural Value Chain Project Development Alternatives Inc. USA
29.	Outcome Survey of McGovern–Dole Funded WFP School Feeding Programme (September - December 2016)	World Food Programme
30.	Assessment of Pre-Primary Education in Bangladesh [Support provided to the Core Study Team of UNICEF on the study design, review of tools, and organized and imparted training of enumerators, data collection from 520 schools in 50 Upazilas of 33 Districts , and data analysis]	Core Study Team of UNICEF
31.	Verification of CLP Activities (Study design to report preparation) (July 2015– March 2016)	Chars Livelihoods Programme (Funded by DFID)
32.	Endline Survey of Householders and Infrastructure for DFID’s Water & Sanitation for the Urban Poor Programme (December 2015 - January 2016)	Water & Sanitation for the Urban Poor (WSUP)
33.	Customer Satisfaction Surveys (Study design to report preparation) (August 2015 - March 2016)	Chars Livelihoods Programme (Funded by DFID)
34.	Mid-term Evaluation of Agriculture Extension Project (funded by USAID) (Study design to report preparation) (August 2015 - March 2016)	Dhaka Ahsania Mission
35.	Agricultural Value Chain Baseline and Annual Surveys 2015 (Study design to report preparation) (August 2015 - March 2016)	Agricultural Value Chain Project Development Alternatives Inc. USA
36.	Baseline Survey: McGovern–Dole and WFP supported Food for Education (FFE) Program in Bangladesh (Study design to data collection) (May - June 2015)	Kimetrica, USA

Sl. #	Description of the Assignment	Client/Organization
37.	Verification of CLP Activities (Study design to report preparation) (July 2014– March 2015)	Chars Livelihoods Programme (Funded by DFID)
38.	Customer Satisfaction Surveys (Study design to report preparation) (December 2014 - March 2015)	Chars Livelihoods Programme (Funded by DFID)
39.	Access to Justice Situation Analysis (Study design to report preparation) (April 2014 – March 2015)	UNDP
40.	Quantitative Performance Evaluation of the Nobo Jibon Program (Study design to report preparation) (October 2014 - January 2015)	Save the Children
41.	Annual Monitoring Survey of Nobo Jibon project (Study design to report preparation) (July -September 2014)	Save the Children
42.	Annual Food Security, Health and Nutrition Survey (Study design to data collection) (September – December 2014)	Chars Livelihoods Programme (Funded by DFID)
43.	Baseline Survey of the First 1000 Most Critical Days Project (Study design to report preparation) (February– August 2014)	Save the Children
44.	Verification of CLP Activities (Study design to report preparation) (July 2013– June 2014)	Chars Livelihoods Programme (Funded by DFID)
45.	Field tests of different methods of immunization coverage survey (July– August 2014)	WHO Geneva
46.	Customer Satisfaction Monitoring (Study design to report preparation) (January– June 2014)	Chars Livelihoods Programme (Funded by DFID)
47.	Baseline Survey for IFMC (Study design to report preparation) (July – December 2013)	Agriculture Extension Component DAE, MoA (Funded by DANIDA)
48.	Annual Survey of PROSHAR 2013 (Study design to report preparation) (August – December 2013)	ACDI/VOCA (Funded by USAID)
49.	Customer Satisfaction Surveys (Study design to report preparation) (December 2012 – June 2013)	Chars Livelihoods Programme (Funded by DFID)
50.	Nutrition Survey in Leda Camp (Study design to report preparation) (December 2012 – March 2013)	Muslim Aid UK (Funded by ECHO)
51.	Testing an LQAS-based Method for Estimating Rates of Technology Adoption (contribute in study design to data collection) (November 2012)	TANGO International for Bill & Melinda Gates Foundation
52.	Baseline Study of Feed The Future Aquaculture Project (Study design to report preparation)	WorldFish Centre

Sl. #	Description of the Assignment	Client/Organization
	(September 2012 – March 2013)	
53.	Annual Survey of PROSHAR 2012 (Study design to report preparation) (August – October 2012)	ACDI/VOCA (Funded by USAID)
54.	Recommendation for Preparing Clinical and Therapeutic Guidelines And Protocols for all Level of Service Delivery (Study design to report preparation) (April – June 2012)	GFA Consulting Group Germany
55.	KAP Baseline Study for SEEMA Project (Study design to report preparation) (January– June 2012)	CARE Bangladesh
56.	Customer Satisfaction Surveys (Study design to report preparation) (October 2011 – June 2012)	Chars Livelihoods Programme (Funded by DFID)
57.	Health Scenario Survey in the Haor Region (Study design to report preparation) (October 2011 – February 2012)	Concern Worldwide
58.	Endline Survey of HISAL Project (Study design to report preparation) (December 2011 – February 2012)	Concern Worldwide
59.	MFI Survey (Study design to report preparation) (October – November 2011)	Chars Livelihoods Programme (Funded by DFID)
60.	Baseline Survey on Human Rights Situation in Bangladesh (Study design to report preparation) (June – November 2011)	UNDP
61.	Rapid Assessment of Changes in Key Socio-Economic Indicators of HISAL Participants (Study design to report preparation) (March – April 2011)	Concern Worldwide
62.	Endline Survey for the 7th Country Programme of UNFPA (Study design to report preparation) (October 2010 – February 2011)	UNFPA
63.	Customer Satisfaction Surveys (Study design to report preparation) (October 2010 – January 2011)	Chars Livelihoods Programme (Funded by DFID)
64.	Survey on drug use among street children and adolescents in Bangladesh (Study design to report preparation) (August – December 2010)	The World Bank
65.	Pregnancy Termination in Matlab, Bangladesh: Time Trends, Methods, Correlates, and Decision-Making Processes (Data collection, entry and analysis) (May – August 2010)	ICDDR,B
66.	Baseline Survey for the Food Security for the Ultra Poor in the Haor Region (Study design to report preparation) (January – June 2010)	CARE Bangladesh

Sl. #	Description of the Assignment	Client/Organization
67.	Verification of CLP Activities (Study design to report preparation) (April 2007 – March 2010)	Chars Livelihoods Programme (Funded by DFID)
68.	Customer Satisfaction Surveys on CLP Activities (Study design to report preparation) (December 2007 – February 2010)	Chars Livelihoods Programme (Funded by DFID)
69.	Informal Justice Survey (Study design to report preparation) (September – October 2009)	Danish Institute of Human Rights
70.	Supervisory and Quality Control Support to Nutritional Status Survey (September – October 2009)	Chars Livelihoods Programme (Funded by DFID)
71.	Public Attitude Follow-up Survey of the Police Reform Programme (Study design to report preparation) (August – December 2008)	UNDP
72.	Impact of CLP's Asset Transfer Programme of Phase I and Phase II (Study design to report preparation) (July – September 2008)	Chars Livelihoods Programme
73.	Evaluation of Communication Campaign on NSV (Study design to report preparation) (March – June 2008)	Engender Health
74.	Review of CLP's Enterprise Programme (Study design to report preparation) (April – July 2008)	Chars Livelihoods Programme
75.	Review of Primary Health Care and Family Planning Project (Questionnaire review, training, data management, analysis) (May 2008)	Chars Livelihoods Programme
76.	IEP Leakage Survey (Study design to data entry) (December 2007 – January 2008)	Chars Livelihoods Programme
77.	IEP Advance and Safety Net Surveys (Study design to data entry) (October 2007 – February 2008)	Chars Livelihoods Programme
78.	Nutrition Baseline Survey (Study design to report preparation) (May – July 2007)	Agriculture Extension Component DAE, MoA (Funded by DANIDA)
79.	Evaluation of NGO Implemented Activities under the Area Based Community Nutrition Program of National Nutrition Project (Study design to report preparation) (September 2005 – August 2006)	World Bank
80.	Evaluation of GRC-BDRCS Primary Health Care Project (Questionnaire review, training, data management, analysis and report preparation) (September 2005 – February 2006)	Bangladesh Red Crescent Society
81.	Evaluation of Community Led Total Sanitation by CARE Bangladesh (Study design to report preparation) (April – June 2005)	CARE-Bangladesh
82.	LEAF Baseline Survey	Intercooperation, SDC

Sl. #	Description of the Assignment	Client/Organization
	(Study design to report preparation) (June to December 2006)	
83.	Assessing and Improving the Consumption Effects of Agricultural Policies and Programs in Bangladesh (Study design to report preparation) (September to December 2004)	Institute of Nutrition and Food Science (INFS), Dhaka University And Tufts University, USA
84.	SHAHAR Annual Time Series Survey [Recruitment, training, data collection, data entry, analysis, report preparation] (September 2004 – January 2005)	CARE-Bangladesh
85.	Rohingya Refugee Socio-Economic Profile Survey in Teknaf and Ukhya (study design to report preparation) (October to December 2003)	UNHCR
86.	BINP Endline Evaluation Survey [Recruitment, training, data collection, quality control, data entry, statistical analysis] (January – August 2003)	Institute of Nutrition and Food Science (INFS), Dhaka University and Tufts University, USA
87.	FPP Baseline Survey in Char and Haor Areas (Recruitment, training, data collection, data entry, analysis, report preparation) (November 2002 – May 2003)	CARE-Bangladesh
88.	LIFT-BINP Final Evaluation Survey (Study design to report production) (November – January 2002)	CARE-Bangladesh
89.	Beneficiary Contact Monitoring (Study design to report production) (October 2002 - August 2003)	World Food Programme
90.	Process and Impact Study of BINP Garden and Poultry Activities (Recruitment, training, data collection, quality control, data entry, statistical analysis) (January – August 2002)	Institute of Nutrition and Food Science (INFS), Dhaka University and Tufts University, USA
91.	Monitoring of Primary Education Stipend Program (data entry, analysis and report preparation) (August – October 2003)	UNICEF
92.	Endline Evaluation of Public Private Partnership Programme for ESP (study design to report preparation) (April – September 2003)	The British Council
93.	Baseline Survey of South Eastern Community Health Project (training, quality control, data entry, analysis) (May - July 2001)	German Red Cross
94.	Livelihood and Agricultural Baseline Survey for GOINTERFISH & SHABGE Projects (training, quality control, data entry, analysis and report production) (March - June 2001)	CARE-Bangladesh
95.	Flood Proofing Project Baseline Survey (recruitment, training, data collection, quality control) (October – January 2001)	CARE Bangladesh
96.	Flood Proofing Project Seasonal Survey (recruitment, training, data collection, quality control)	CARE Bangladesh

Sl. #	Description of the Assignment	Client/Organization
	(October – January 2001)	
97.	Public Private Partnership (PPP) Baseline Survey (study design to report production) (August – September 2000)	The British Council
98.	Health and Nutrition Baseline Survey in 3 Metropolitan Cities (study design to report production) (May – September 2000)	CONCERN-Bangladesh
99.	Medical Education for Essential Health Services (MEEHS) Baseline Survey (study design to report production) (May 2000)	The British Council
100.	EPI Coverage Survey in the South-eastern Border Areas of Bangladesh (study design to report production) (February 2000)	Immunization and other Child Health (IOCH) Project (Funded by USAID)
101.	EPI Coverage Survey in the Urban Areas of Bangladesh (study design to report production) (December 1999 – January 2000)	Immunization and other Child Health (IOCH) Project (Funded by USAID)
102.	EPI Coverage Survey in the North-eastern Border Areas of Bangladesh (study design to report production) (November –December 1999)	Immunization and other Child Health (IOCH) Project (Funded by USAID)
103.	The 1998 Round 2 Study on Women Participating in the 1997/98 WTC Cycle (study design to report production) (January 2000)	World Food Programme
104.	Effective means to address moderately malnourished children within BINP communities (Data management and analysis) 1999	ICDDR,B
105.	Is the Supplement a Substitute or a True Supplementation to the Usual Diet? (Study design to report preparation) 1999	Institute of Nutrition and Food Science (INFS), Dhaka University
106.	Focus Group Discussion with Working Children. 20 separate focus group discussions with different occupational groups of children (study design to report production) (Nov. – Dec 1998)	Education Section UNICEF
107.	Mid-Term Review 1998 of BINP sponsored by the MOH&FW [Recruitment, training, data collection, quality control, data entry, analysis] (October 1998 – March 1999)	Institute of Nutrition and Food Science (INFS), Dhaka University
108.	The Round 2 Study on the Socio-economic Impact of Selected GCCR Schemes Implemented During 1995/96 Workseason (study design to report production) (March – July 1998)	World Food Programme
109.	The 1998 Round 1 (Baseline) Survey on Women Participating in The 1998/99 VGD Cycle (study design to report production) (March – May 1998)	World Food Programme
110.	The 1997 Round 1 Baseline Survey on the Fish Cultivators of The 1996/97 Workseason (study design to report production) (Dec. 1997 to April 1998)	World Food Programme
111.	Baseline Survey on People's Participatory Process for Human and Health Development (study design to report production)	Society for Health Extension and Development (SHED), Teknaf

Sl. #	Description of the Assignment	Client/Organization
	(December –March 1997)	
112.	Multi Indicator Cluster Survey 1997 (Data collection, quality control) (November 1997 - January 1998)	UNICEF/BBS
113.	Urban Livelihood Study (Recruitment, training, data collection, quality control, data entry, analysis) (September to November 1997)	CARE-Bangladesh
114.	Health and Nutrition Baseline Survey 1997 (study design to report production) (June to August 1997)	CONCERN-Bangladesh
115.	Health and Nutrition Baseline Survey 1997 in 44 thanas sponsored by the Ministry of Health and Family Welfare (Recruitment, training, data collection, quality control, data entry, analysis) (May - December 1997)	Institute of Nutrition and Food Science (INFS), Dhaka University
116.	The 1997 Survey on the Socio-economic Impact of selected GCCR Schemes started in the 1996/97 Workseason (study design to report production) (April to October 1997)	World Food Programme
117.	Study on Present Situation of the Garment Child Workers Enrolled in NGO Schools (study design to report production) (February – April 1997)	UNICEF
118.	The 1996 WTC-IES Study at 30 WTC centers located in 12 Districts in Bangladesh (study design to report production) (January to May 1997)	World Food Programme
